LITTLE COMPASS

**AUTISM RESEARCH AND
DEVELOPMENT CENTRE**

ABOUT US

All children are born different and unique especially in the way they learn. With this in mind, Individual Education Plans (IEP) are tailor-made specifically for each child to develop social, communication, academic, and life skills.

At Little Compass, we offer programs based on learning through these interactions. Here, activities are created to facilitate their developmental needs and raise the level of abilities of each individual.

📍 36, Jalan 2 Taman Kuchai
Off Jalan Puchong Batu 6 1/2,
58200, Kuala Lumpur

Objective

To help children manage their own behavior and equip them with the necessary tools so they may have the opportunity to engage positively in school life and beyond

MISSION

To teach children in a fun and stimulating environment so they may reach their full potential

VISION

To inspire a love of learning and to provide children with an opportunity to develop their personal goals.
